

Capricorn Space Pty Ltd

capricornspace.com.au

Capricorn Space is a proudly Australian owned and operated company providing Ground Segment services to the NewSpace and Legacy Space markets.

Our initial site near Mingenew in Western Australia – 80 km SE of Geraldton – accommodates two Capricorn Space 5 m all-sky tracking antennas (supplied by COMTECH UK) and services multiple Low Earth Orbit (LEO) passes each day for a range of Australian and International clients. We also provide critical launch support services to key international clients.

Capricorn Space Site, Mingenew, WA

Additionally, our site hosts antennas and equipment for third-party operators enabling clients to achieve a rapid point of presence in the southern hemisphere. We currently host eight third-party client antennas with another four scheduled for installation in 2024.

Capricorn Space Antennas (5 m S/X-Band)

CCTV View of Site

Capricorn Space is proud to be sponsoring the 18th Australasian Symposium on Antennas as high-performance antennas will remain a vital part of our exciting and dynamic industry and we want Australia to lead the word in advancing this technology and delivering world-leading antenna engineers, technicians and specialists.
